## Hampshire Futures

### HAMPSHIRE FUTURES: WHO ARE WE?

Hampshire Futures is part of Hampshire County Council. We help Year 11 students move from school to college, training, or getting a job.

If you're a young person in Hampshire and need help over the summer to get back to college or find a job/apprenticeship, Hampshire Futures is here for you.

### WHAT CAN WE DO TO HELP?

- Our qualified careers advisers can offer information, advice, and guidance on education, training, and employment opportunities.
- We can help with college applications and enrolment processes. We work with colleges and training providers to help young people overcome potential barriers to success.
- For those looking to work, we can help you identify opportunities and develop your job search skills, such as CV writing, interview preparation, and writing applications and cover letters.

### HOW TO CONTACT US

If you want some support, either Jo or Suman (our Eastleigh advisers) can meet you at a place near you. There's no pressure; we can meet just once or as many times as you need to help you move forward. If you prefer, we can also chat online or communicate through calls and emails—whatever works best for you.

For more information about how we can support you, contact us at
