## OPTIONS 2021

Dear parents/guardians,

It is with pleasure that I am announcing the start of the Options 2021 process.

As you may know, at Wyvern, students select their option subjects in Year 8 so that they may begin their Key Stage 4 curriculum at the start of Year 9.

This 3-year Key Stage gives students additional valuable time to enable them to achieve examination success at the end of Key Stage 4.

At this time, you are not required to take any direct action. However, I would like to begin the process by presenting to you a "Virtual Assembly" (for parents and students, that outlines the process for Options 2021. It would be helpful if you and your child could view the short assembly so that you have a better understanding of timescales, procedures, etc. You can view the assembly [HERE](#).

Additionally, there is a dedicated Options 2021 website on the main Wyvern site (under STUDENTS). The site details subject information so that students can begin to consider what subjects they may like to take.

You can also access the site by clicking on this link [Home | options2021 \(wixsite.com\)](#)

I will be in touch at appropriate times to guide you through the process.

Thank you and best wishes.

Paul Metcalfe  
Assistant Headteacher
